CONGRESS.

WASHINGTON, April 30.

In the Senate, On motion, the consideration of private bills was postponed, and the Senate then took up the deficiency bill. The bill for the settlement of claims arising out of the military operations in California was passed.

The deficiency bill was then taken up, and Mr. Pierce resumed his remarks.

Mr. Pierce continued his remark at some length. When he had concluded Mr Gwin, of California got the floor, and replied defending the positions assumed by him in his former speech on the subject.

Mr. Rusk of Texas followed, when the bill was postponed till Monday.

Mr. Hale desired to know whether when this bill came up again it would be in order to debate the propriety of Whig and Democratic parties adopting the "finality of the compromise" as part of their respective platforms.

Mr Mangum, as the chair said that question would be decided when it arose.

Several petitions were presented, and reports made.

Mr Adams offered a resolution to meet to-morrow at 11 to take up the Deficiency bill, and that all debate should stop at once, and then the Senate should vote. Executive session followed, and the Senate adjourned.

House. Mr Curtis moved that the House go into committee of the Whole on the private calendar.

Mr Gorham reported in favor of printing 60,000 extra copies of the mechanical portion of the patent report.

Mr. Claghorn said that, before voting, he wanted to be informed who was to do the printing and upon what terms. He was surprised that the House had not yet learned what arrangement the Committee on printing had made with. It was rumored that the committee had given out at extravagant prices.

Mr Gorham called for the previous question, which was not seconded.

Mr Daniel moved to postpone the matter until Monday for the consideration of private business.

Mr Brown moved to postpone until Tuesday. Mr Brown's motion was finally agreed to, and the House then went into committee on the private calendar.

Four or five bills were acted on, and subsequently reported to the House, while in committee.

Mr Door of Pa. said that as he had in vain attempted to get the floor on the Homestead Bill, he would print a speech in favor of that measure.

Mr Florence likewise gave notice that he should write out and publish some remarks in favor of the Homestead Bill, and in favor of an amendment providing grants of 160 acres of land to all the soldiers of the war of 1812, the Florida and other Indian wars, without regard to the term of service.

A disposition was apparent to vote on the passage of the bills reported from the Committee but Mr Polk moved that when the House adjourn, it adjourn to meet on Monday. The question was decided in the negative—yeas 67, nays 71.

A motion was then agreed to, by yeas and nays, to adjourn till to-morrow. Another motion was made to adjourn till Monday, which was decided in the negative—yeas 82 nays 61.

Mr [illegible] being present, the House [illegible]

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS
WITH U. S. PATENT OFFICE,
WASHINGTON.

No. 22 State Street, . . Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th sec. of Act of '37

Having relinquished the Agency for the transaction of Models and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier* the continues to forward them free of expense.—He prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other foreign countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of personally explaining their inventions, and of consulting in respect to them *matters in general of practice important in order to obtain correct specifications and claims.* The experience for sixteen years practice, an extensive collection of rare works of various kinds on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time the office has been established, together with assistants here and kept of inventions presented at Washington, enable the subscriber to afford inventors decided advantages in procuring Patents, examining and information which in other respects might be difficult of attainment.

E. B. H. EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1849.

During the time I (Commissioner of Patents, E. B. EDDY Esq of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill fidelity and address. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure the same as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

J. BIN... SPAULDING'S
CELEBRATED HIGHEST PREMIUM
Cytherean Hair Oil, or Wash,
COMPOSED OF

ROSE MARY

AND CASTOR OIL,
FOR
Beautifying, Restoring, Embellishing and Curling the Hair!

THE virtues of flowers and Castor Oil are so well known to require no introduction—being two of the most important articles in use. They are here combined by a scientific and delicate process, from the recipe of America's most celebrated Chemist, and blended in such proportions as to render it the most delightful, healthful and beautifying preparation ever offered to the public.

It promotes a luxuriant growth, prevents the hair from falling off, and keeps it from turning gray, imparting a beautiful appearance. It is the best dressing in the world for children's hair, rendering it soft, glossy and of a dark color.

To Travellers.—It is unequalled by any thing ever before discovered, for the following qualities, viz: To prevent the hair from falling off, and to cure diseases of the scalp.

To cure the worst Headaches.

To clear false white eruptions, and to cure dandruff.

CAUTION.—Purchasers should be careful to get the genuine article, as worthless preparations are frequently imposed upon the unwary. Ask for SPAULDING'S ROSE MARY, and take no other. Manufactured only by J. RUSSELL SPAULDING, Chemist and Apothecary, No. 14 Main Street, Lowell, Mass.

A Certificate.

BANGOR, June 8, 1850.

THIS certifies that I have used exclusively all the season with very satisfactory results, and have found several kinds of Eye Water without any beneficial effects, and indeed before trying a bottle of MANN'S EYE WATER, which entirely cured them and also cured me of a dangerous sickness that was about a year and a half in progress. This was about a year ago. Last fall I provided myself with a bottle, and carried it with me in the woods, while in the employ of Lumbermen. Some one of the men in the woods were troubled with sore Eyes. All were cured that used it, and would advise every person who may be going into the woods and River driving, to carry this article with them. I will refer to Mr Wm. Rice, Master of Mason and the men in his employ. This certificate is entirely voluntary, and I give it for the good of the Mankind.

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 74, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway.

Sir,—Your Pills and Ointment have stood the test of time for many years. Medicines, in my opinion, are a curse or a blessing, according to the quality of the article and the judgment with which they are administered. A customer, to whom I can refer you if required, desires me to let you know the particulars of her case. She had been troubled for years with disordered liver and bad digestion. On the last occasion, however, the irritation of the attack was so alarming, and the inflammation getting so severe, that doubts were entertained whether not bringing it to a head (matter) or to resolve it was the best course to pursue; for the latter she was induced to try your Pills, and the result was that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases out, the above being from the severity of the attack and its speedy cure, I think speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March, 1851, by Major J. Welch.

Margaret Cushing, an inmate of the Invalid Establishment at New Town, had been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and to an incredible short space of time they effected a perfect cure.

CURE OF A PAIN IN THE TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON OF THREE YEARS OF AGE.

From Messrs. Thos. & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement:—Dated April 21st, 1851.

To Professor Holloway.

Sir,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I had been severely troubled with pain and tightness in the stomach, which was accompanied by a difficulty of breath, that prevented me from walking fast. I am 58 years of age, and was gradually getting worse and worse, when Pills were recommended me that I am desirous that others should be made acquainted with their value. I have now recovered by their means, comparatively speaking, and can walk over the hills without inconvenience or pain, which I could not do before. I remain, Sir, HENRY COE, Newspaper Proprietor, Lynn, Norfolk.

These celebrated Pills are wonderful in their effects in the following complaints:

Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowel Complaints, Colds, Colics, Constipation of the Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Fevers of all kinds, Female Irregularities, Gout, Head-ache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of Urine, Scrofula or King's Evil, Sore Throats, Stone and Gravel, Secondary Symptoms, Tic Doloureux, Tumours, Ulcers, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, Wounds of every description.

Sold by the Proprietor, Professor Holloway, 244, Strand, (near Temple Bar), London, and by all respectable Venders of Patent Medicines throughout the United States, at the following prices:—25 cents, 62½ cents, $1 00, and $2 00 each. There is a considerable saving by taking the larger sizes.

N.B. Directions for the guidance of Patients in every disorder are affixed to each Box.

George Hummell's PREMIUM *ESSENCE OF COFFEE*

ONE package at 12½ cents will save four pounds of Coffee. Thousands of families, not only of the poor but also of the most genteel and rich, and many of the first physicians of this and other cities witness that Coffee made with this Essence is much wholesomer, more delicate, finer flavored, perfectly clear, and in every instance better than the best Java Coffee.

At the late fair, was awarded a silver medal by the American Institute of New York, also a premium by the Franklin Institute of Philadelphia, 1851, in both instances the highest premium for such articles.

NEW YORK,

ARE prepared to supply their Zinc Paints at the following prices:

No. 1 White, ground in oil, 8c per lb.
No. 2 White, ground in oil, 8c per lb.
No. 3 White, ground in oil, 7c per lb.
Brown and Black, ground in oil, 5c per lb.
Dry White of Zinc, 6c per lb.

WHITE ZINC PAINT,

After thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint, both whitewash and brilliancy in all unfavorable effects from all poisonous properties so common and dangerous in other pigments; will cover equal weight, from 10 to 100 per cent. more surface than lead, and is, therefore, much cheaper to the consumer. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of ships. Thus White Zinc ground in varnish produces the purest, finish.

Their

Brown and Black Zinc Paints

in a few hours form a hard and solid metallic coating upon wood, brick, iron and other metallic surfaces, and are remarkable for their fire proof properties. They are specially adapted for marine purposes, having been found to resist the corrosive action of salt water, so destructive to other paints.

Whig and Courier.

Small Debts or what are Dollars paid.

Mr. Herriot was sitting in his office one day, when a lad entered, and handed him a slip of paper. It was bill of five Dollars, due to his shoemaker, a poor man who lived in the next square.

"Tell Mr. Grant that I will settle with him soon. I have a hard enough time to get my own."

The boy retired.

Now Mr. Herriot had five Dollars bill in his pocket, but he did not like to part with it. He didn't like to be troubled for small debts, coming from the poor. He would rather the boy would come for large ones, and so Mr. Herriot for the next five minutes, yet his thoughts were busy.

Finally he took out his pocket book, and looked at the bill. Then he looked at the door, and then he looked at the bill again. Then he looked at the door, and then he looked at the bill again. Then he looked at the door, and then he looked at the bill again

Railroad Stock.

It should be generally understood that in order to secure the early construction of the railroad between this city and Waterville it is absolutely necessary that the whole community unite, the rich of small means with the men of large means, and all push forward together in the enterprise. There are in this city several hundred laboring Irishmen, who have acquired some property, many of them owning their dwellings, and few of them without a shot in the locker. These men have a deep interest in the construction of the railroad. It will furnish many of them labor and business, and will enhance the value of their property. Many of these men are expected to take stock in the road, and they should be ready to come in a body, and swell up the subscription to the stock to the largest amount they can afford, having reference to the great benefit the road will be to them. The men referred to are industrious, economical, and thriving men, and they are deeply interested in the growth and prosperity of the city. Now is the time for them to show their patriotism, and their foresight, and to give a practical demonstration of their regard for Bangor, and for their own interests connected therewith.

The Concert This Evening.

It is rare that our citizens are favored with an opportunity to attend a Concert more worthy the attention of the lovers of good music, than that offered for this evening. We are assured by musical friends in whom we have the greatest confidence, that the performers and vocalists who are to take part in the Concert, have justly earned a good reputation, and have assisted in some of the best concerts given in the country. Miss Julia Wheelock, a gifted young lady of eighteen summers, has been for several years under the best musical instruction in New York, and has taken prominent parts in several Concerts in that city, with most decided success, and in which she won enthusiastic applause. Mr. Wheelock has made music his professional study for some time, and his family are noted for their musical skill, both in composing music and in singing.

A correspondent worthy of some reputation, as authority in matters of this kind, and who is well acquainted with the merits of the two performers, Mr. Crouch and Mr. Jungnickel, thus speaks of them, which proves them worthy to take part in a public Concert with Mr. Wheelock and his daughter.

Mr. Editor:

I do most sincerely hope that the concert on Thursday and Friday evenings will have a crowded attendance. First, I confess, from my desire that the artists may be generously remunerated, and secondly, for the sake of the citizens themselves, that they may enjoy the rare delight of listening to music from admirable masters of it, each different, and each perfect.

Mr. Jungnickel is a young German whose genius on his magnificent instrument—the violincello—is of superior power. As a man must be born to poetry, so he must be to music, and Mr. Jungnickel to be one of the most decided of those whom nature pronounces for musicians, and to nature he has added all that can be obtained from the most thorough study of his art, and the most extensive knowledge of its finest compositions. No person that is susceptible of musical impression can listen to Mr. J. without feeling that he is a man possessed of a true inspiration, that an enthusiasm of the most genuine kind moves him as he plays, and places around him loving tides of impassioned harmony. His is the devotion, of a lover to his instrument, and the instrument, as if it received a *spirit* out of his, breathes in answer to his touch, in wonderful and enchanting eloquence. He has no force of arm and agility of finger, that leaves that heart cold, while it strains both sight and hearing with painful astonishment; it is imagination, emotion, soul, that by means of beautiful sounds proceeds from the genius of the artist, and transfuses itself through the hearts of the audience. The result is that complete sympathy, which is so absorbed in, the singleness of feeling, that the attention ceases to notice the mechanical and material medium by which artistic agency accomplishes its effects. To suppose that such an instrument so unwieldy in appearance as the violincello, an instrument which so bulkily obtrudes itself on the senses, is a noble triumph of the spiritual over the physical. In connection with this instrument in two cases, I have seen the glory of such victory; the one was the lamented Caspo, the other, Jungnickel, and in both it was by the intense union of mind and music. There was music in the soul of both, and after all, the music of mere sound is simply noise without the music of the soul. These remarks pretend not to be critical. The writer has no technical knowledge, and assumes to be no authority in technical results; but the power of art is for all, not for the learned only; and as one of the unlearned, yet susceptible, the writer claims nothing except to speak earnestly from delighted experience.

Of Mr. Crouch likewise may be said, for his name itself is celebrity. Since Carolan first tuned the harp to the breathing of his ill-born melody, no man has given to Mr. Crouch's has, such inciting expression to the sweetness and pathos of the Irish heart. The soul of a mournful beauty is in his songs—and that is the deepest beauty of humanity. If there is a heart that cannot be touched by such strains as "Kathleen Mavourneen"—it must be one that is as inaccessible to gentle thoughts, as it is to tones of melody.

☞ The Quebec Chronicle states that depredations have been made by a party of Americans upon the Crown timber lands on the Black river. An officer was dispatched to warn them off, and to seize the timber that had been cut; but the intruders not deeming it proper to desist, a posse was sent on from Quebec, which was to be backed up by a company of soldiers. The Black river is a tributary of the St. John and flows partly through American and partly through Canadian territory. About 125 lumbermen, it seems, had stopped across the line. The Canadian authorities were directed to block up the river.

CITY OF BANGOR.

In Board of Aldermen, }
May 3, 1852. }

The joint Standing Committee on Finance in compliance with an order of the City Council, passed March 22, 1852, directing them to ascertain and report the sum or sums necessary to be raised to defray the expenditures of the city the present municipal year, and for what purpose the same shall be appropriated, have attended to the duty and ask leave to

REPORT.

The Committee in the discharge of the duties imposed upon them, have endeavored to ascertain the actual necessities of the several departments of the city, requiring the expenditure of money. There are many calls for expenditures for purposes which are very desirable in themselves, and which would, no doubt, contribute to the comfort of our citizens, and to the beauty and reputation of the city, but there is great restraining force against receiving them, in the fact that the only source of revenue on which to depend, for supplying the treasury, is by taxation of property. This is already very heavily expended [illegible] the pockets of our citizens. Your Committee therefore confine themselves in their recommendations to what they deem absolute necessities of the City, which are essential to the maintenance of the public credit, the education of youth, the support of the poor and the public safety and convenience; and even with these limitations the closest economy is required, both in the appropriation and the expenditure of money, to prevent the financial operation from proving to be a burden upon the people, for whose benefit it was established.

In the opinion of your Committee, sound financial policy requires that every department should confine its expenditures within the limits of the appropriations, and this is believed this may be done, except in extraordinary cases, with an exception to the general rule. To appropriate a less sum than the imperative necessities of the public require, tends to expend ditures beyond the appropriations, and to the creation of debts, all of which result in loss and [illegible] upon the city. If one year a portion of the expenditures are postponed, it is only to increase the burden of the next year, and which would only cause larger appropriations upon the next, with large additions for interest. In the discharge of the duties imposed upon this Committee, and in their deliberations they were guided by the following principles, which have been adopted by the several funds.

The Public Schools of the City require for the present year the sum of [illegible] any of the expenditures. This present excellent character of the City's many advantages as a home for families, and an honorable reputation in every quarter. The policy of Bangor, in providing for the education of her children, is the true policy, and it should be the care of every citizen that the system of public education be maintained in that high position which is one of the brightest jewels of the City. The sum required for the support of the Common Schools is Seven Thousand and Fifty Dollars, for the High Schools Two Thousand and Forty Dollars, for School Houses Five Thousand and Five Hundred Dollars, making in all Eighteen Thousand and Six Hundred Dollars. It was said to have been the City's portion of the [illegible] to have been expended for Schools and School Houses the present municipal year.

For Streets and Highways there will be required the sum of Eight Thousand and Five Hundred Dollars. This is Five Hundred Dollars less than was recommended by the Street Commissioners in their report of last Year, and Fifteen Hundred Dollars above the appropriation of 1851. This additional sum is not required to build new side-walks ordered by the present Council.

The Fire Department will require the same sum as last year, Five Hundred Dollars. Ten hundred and sixty dollars for compensation to engineers, nearly Three Hundred Dollars for the purchase of Hose, and about Three Hundred Dollars to pay outstanding bills at last year. If the ordinance before the Board, for the construction of Reservoirs, to be built on Brinks and Cemetery, be adopted, it will require nearly three thousand dollars more for that purpose. Your Committee do not recommend an appropriation for the building of an Engine House referred to in the Mayor's address. A suitable lot has not yet been selected, and as some difficulty exists in obtaining one, of the satisfactory to the City or Company, for that purpose, the Committee would recommend that when a lot is obtained and the House erected, the cost of the same be met by a tax levied upon the polls and estates of the City, the payment of which to be included in the taxes of next year.

For the support of the Poor, Five Thousand and Five Hundred Dollars is required. One Thousand Dollars of which is to pay outstanding bills against that Department of last year. Should the Council deem it expedient to enlarge the Alms House, and make other improvements as are recommended in the Overseers report of March 13, 1852, and which has the approval of the present board of Overseers, the further sum of Three Thousand Dollars will be required.

For contingent expenses your Committee recommend the sum of Eight Thousand Dollars, an increase of two thousand dollars over the appropriation of former years. By reference to the Treasurer's report of 1851, 1850, and 51, it will be seen that the contingent fund was largely overdrawn. In the discharge of the present payment of [illegible] and [illegible] There are several claims, if the City be adjusted the present municipal [illegible] and when they are settled the amount will be drawn from the appropriation.

For the payment of Salaries and other compensations of the City Officers, Firemen and Fire Hose and Hose Carriage, and other contingent expenses, Four Thousand Dollars are required.

For the support of the City Wharf, One Thousand, Five Hundred and Fifty Dollars.

For the payment of interest on the permanent debt and temporary loans, Seven Thousand and Five Hundred Dollars.

On the 1st of July next, there is due of the permanent debt, Ten Thousand Dollars. Your Committee would have gladly recommended a portion of that sum to be paid by assessment, the present year, believing that the true policy of the City is, to liquidate a portion of her debt annually, looking forward to its final extinguishment, but the large amount of temporary loans that were added to the taxes of last year induced Your Committee to recommend that the Treasurer be authorized to renew the loan due on the 1st of July next.

The total amount recommended by your Committee to be raised by assessment, for the purposes herein named, is Fifty-six Thousand, Two Hundred and Fifty Dollars, which is Eleven Thousand and Fifty Dollars less than the sum raised in 1851. The cost of the system needed for the Alms House, is not included in the sum stated.

In conclusion, your Committee ask leave to report the accompanying [illegible], and would respectfully recommend its passage.

All of which is respectfully submitted,

S. O. HATCH, Chairman.

The present number closes the fourteenth volume of this valuable publication, and contains in addition to its usual variety of matter, a full table of contents for the year. Its leading article is a notice of the provisions relating to the Judiciary made by the Constitutions of the several States of the Union. The important case of Moore and wife v. Abbot, decided by our Supreme Court, relative to the liabilities of towns for damages occasioned by defects in highways, is fully reported in the present number. Copious abstracts of cases not yet reported in the volumes of reports are added largely to the value of the work. As the next number commences a new volume, now is the time to subscribe.

☞ Chevalier Hulsemann has left Washington for Europe. It is stated that previous to his leaving, he wrote insulting letters to Mr. Webster, but at the same time acknowledged the kindness of the President.

Chevalier Hulsemann sent copies of his letter to Mr. Webster, to all the Foreign Ambassadors.

☞ The Steamer Eastern State is soon to be furnished with a new and larger wheel, which will increase her speed about one mile an hour. She is to be thoroughly painted and brushed up after her winter campaign, in which she has performed good service.

☞ Brockmuller's great sale of Plants, Trees, Shrubs, Flowers, &c., will commence at the Green House, this forenoon, and continue until the entire stock is sold out.

The Democrats of the 5th District of Virginia have elected delegates to the National Convention. No instructions were given but all express a preference in favor of Buchanan.

Advices from Santa Fe to March 17th have been received. All was quiet. The Gila expedition had not returned. They were last heard from near the old copper mines.

The treaty with the Sioux Indians, providing for the cession of 40,000 or 50,000 square miles of territory to the United States, will be ratified by the Senate this week.

Vacancy in the Second and Lincoln Congressional District. The death of the Hon. Charles Andrews, leaves a vacancy to be filled in the present district (so called) in this State. Fortunately this contingency has been provided for by law, so that no such trouble will arise as was experienced in New Hampshire case. Although the State has been re-districted the Legislature provided by law, that, in case of a vacancy occurring in the present Congress, it should be filled by the districts as formed at the time of the first election of members. From Panama the report is that abundant provision is now made for the accommodation of passengers for California. In addition to the steamers, several of the finest clipper ships in the world were waiting on the 15th, all ready to receive passengers so that none would be likely to be detained more than 24 hours at Panama.

CONGRESS.

Washington, May 3.

In the Senate—A communication from the Census Bureau was received.

Mr. Sumner of Massachusetts, presented resolutions from the Legislature of that State, in favor of cheap ocean postage. Read and referred to the Committee on Post Offices and Post Roads.

The deficiency bill was taken up, and Mr. Rusk of Texas supported the amendment giving additional aid to the Ottawa line of steamers. After Mr. Rusk had concluded, the bill was postponed to give Mr. Haines an opportunity to speak on the amendment.

The Chair laid before the Senate a report from heads of all the departments, communicating a plan for the classification of clerks, of appointments of salaries, &c., in all the departments. Ordered to be printed and referred to the Finance Committee.

After a short executive session the Senate adjourned.

In the House—The House on motion, took up the bill for the relief of Charles E. Hunter and considered.

Mr. McDonald, from Committee on Revolutionary Claims, reported back the Senate bill for relief of Jane Irwin of Georgia. It allows her the account of losses and services by her father in the war of the revolution, the pay of captain from the time of that war to the death of Col. Irwin, a period of thirty five years. This was passed through under a suspension of the rules and without debate.

The house then proceeded to dispose of a vast amount of business, which for the last two months has been accumulating upon the speaker's table, including sixteen communications from the executive departments, some of which were laid on the table and others referred to committees. They were generally of no importance.

The agricultural part of the patent office report was laid before the House, and the motion to print 150,000 copies referred to the Committee on Printing.

A large batch of Senate bills was severally passed. Those giving the right of way and lands to Iowa and Minnesota for railroad purposes were sent to the Committee on Public Lands.

The Senate joint resolution authorizing the purchase of the 5th volume of the work of the Exploring Expedition was passed.

The House took up the following Senate amendments, providing that any U. S. officer of a territory who shall absent himself for a period of sixty days in a year, without good cause, or without consent of the President, shall not be paid for the time of such absence, and proposing to repeal a proviso in a law of 1851, which makes an officer lose the whole year's salary in certain cases. A debate sprung up in which Mr. Stuart said that he learned accidently that the subject of the judges has given the President more trouble than any other during the past year.

Mr. Staunton of Tenn. said the Utah judges ought to be paid, as they had been driven away from that territory.

Mr. Stephens of Georgia remarked, I am against paying any officers who run away from their duties.

Mr. Staunton said, these judges had to leave, there was no other alternative. Honorable men could not remain there.

Mr. Foster said that persons importuned for places and interceding for them. As an instance one of the judges of Oregon went to dig gold and another came to the United States. This is the distort, and persons want the pay without having performed their duties.

Other members spoke when the resolution was referred to the Committee on Territories.

The French spoliation bill was then taken up, when Mr. Hubbard moved to refer it to the Committee on the Whole on the State of the Union.

Mr. Daily moved to refer it to the Committee on Foreign Affairs. The reason for this motion was he said, that from 1804 down to this time, when stated on it all, such a bill was reported from that Committee. He asked, if we get into committee on the whole on the state of the Union, will it not require two-thirds to take up this bill.

The Speaker replied, if taken up out of order it would.

Mr. Stanley. Precisely, and to take it up in that way is impossible.

Mr. Jones of Tennessee, said this being a bill making an appropriation of money, it must go to the Committee on the Whole on the State of the Union.

Mr. Stanley said—you are mistaken, there is no appropriation in it.

Pending the question on referring the bill to the committee on the Whole on the State of the Union, the House adjourned.

Washington, May 4th.

In the Senate—The Chair presented a communication from the Secretary of War, in answer to a resolution of enquiry, whether officers of the Navy had received greater compensation than was allowed by law, stating that no such abuse existed.

Mr. Hale said the report was presented in reply to a resolution offered by himself. He had read the answer of the Secretary, and was satisfied that there was no foundation for the charges.

Mr. Sumner presented a resolution from the Legislature of Mass., in favor of the French Spoliation Bill, and a ship canal around the falls at St. Marie.

Mr. Hamlin announced the death of Charles Andrews, a member of the House from the fourth district of Maine, and passed a feeling eulogy upon his character.

In the House—After the usual opening business, Mr. McDonald of Maine announced the death of his colleague, Mr. Andrews. The customary resolutions were adopted, and the House adjourned.

They are all new, and warranted perfect bound in every variety of style, from the most cheap for the library, or rich and gorgeous for the centre table.

Also, every beautiful book of gift books, adapted to any season.

Bibles of every style and size, both for the pocket and the family.

During the day, the Books can be examined, and will be sold at fair average auction prices.

The Ladies are especially invited to call. The evening sale by auction will commence at early candle light.

His store is limited, and no one should neglect this rare opportunity of replenishing their libraries, or laying the foundation for one.

Bangor Air-Tight COOKING STOVE

THE first Cook Stove ever introduced to the notice of the people.

Having secured the sole agency of this very desirable Stove I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this section of country, by those experienced and expert Stove manufacturers Messrs. Easter & Whittier, who know, and have appreciated the wants of this section of the [illegible] people. It is now offered to the public with the full assurance of its merits, and its superiority over every other Cooking apparatus ever introduced. It is the convenience for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. One very important feature is, it has very stout, and solid castings, and being manufactured in this city, can at all times be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be procured from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and does not give entire satisfaction may be returned and the money will be refunded after 30 days trial.

—ALSO—

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices for cash.

Elevated Oven Stoves—Hampden 3 and 5 finder and Oven—Boston two oven Stoves, Portes-Queen &c.—and that very beautiful pattern, the Cottage Parlor Stove, and in fact every variety of Stoves for Cooking or warming, both for [illegible] and Church Use. No. 15 [illegible]
